Eliminator Connection Plate Change

Eliminator Connection Plate Change

Warranty Statement

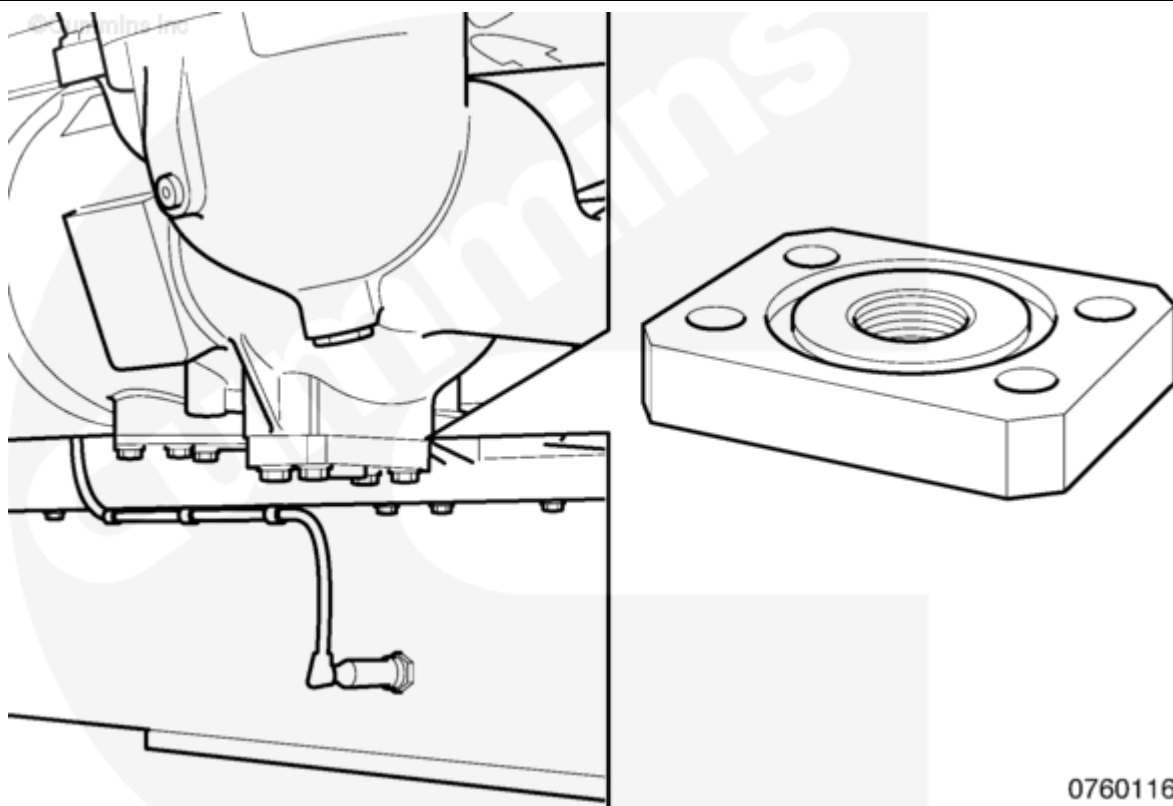

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This Technical Service Bulletin informs the field of an Eliminator connection plate change for use on the QSK45/60 Series engines.

The Eliminator connection plate material has been changed from aluminum to steel. Both parts are interchangeable and are exactly the same, apart from material type. The current o-ring (Part Number 3393437) **must** still be used with this plate.

The graphic below shows the component as installed on the engine and as a separate component.

07601165

Old part number: 4100434

New Part Number: 3637968

Note : This is a product improvement and not subject to campaign or TRP.
