Contents

This document announces the availability of enlarge head gaskets for QSK45 and QSK60 engines. To maintain proper engine operation, enlarge head gaskets are needed for blocks which have the top surface or deck machined during overhaul.

The following dimensions **must** be measured to determine the correct enlarge head gasket to be used:

- Block deck to crankshaft centerline (1)
- Block deck to crankshaft bore (2).

For new block deck height, reference Head Deck Surface in the Inspect section in the QSK45/60 Service Manual, Bulletin 4021530. Refer to Procedure 001-026 in Section 1.
