New Aftercooler Coolant Tubes

New Aftercooler Coolant Tubes

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This service/parts topic announces the introduction of new one-piece aftercooler coolant tubes on all QSK60 series engines in order to address failures due to coolant tube seal wear.

This change replaces the existing eight-tube arrangement with a new four-tube arrangement.

The two mid-point connection blocks and associated brackets are eliminated. Pipe securing brackets are also introduced.

The new one-piece LTA (Low Temperature Aftercooling) tube arrangement went into production at the Daventry Engine Plant with engine serial number first 33149389.

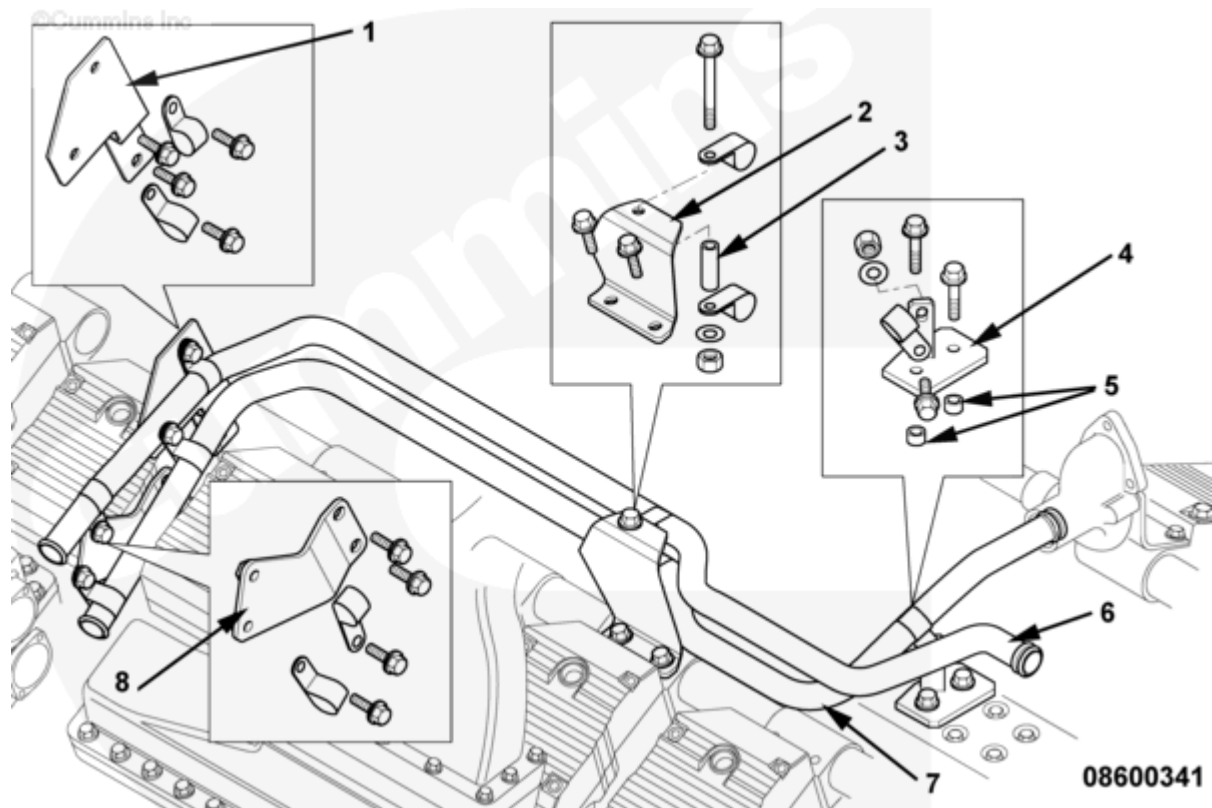

Figure 1, New Arrangement (Right Bank)

Table 1, Parts Changes - Right Bank (Refer to Figure 1):

New One-piece Design		
Item Number	Part Number	Description
Fig. 1, Item 1	4066204	Bracket, water tube
Fig. 1, Item 2	4080251	Bracket, water tube
Fig. 1, Item 3	4080242	Spacer, mounting
Fig. 1, Item 4	4080248	Bracket, water tube
Fig. 1, Item 5	4080241	Spacer, mounting
Fig. 1, Item 6	4017624	Tube, water transfer
