New Jacket Water Pump

New Jacket Water Pump

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document introduces a new jacket water pump containing a new seal and shaft for use on Tier 1- K38, K50, QSK45, QSK60 and QSK78 diesel engines, QSK38 Modular Common Rail System (MCRS) diesel engines, and QSK38 and QSK60 gas engines.

This issue can be identified by excessive oil leakage from the weep hole of the water pump.

The new water pump contains a new seal and shaft, and has been released as a continuous product improvement.

The new seal and shaft are available as service items.

The new water pump went into production at the Daventry Engine plant on 14-Apr-2011. Engine Serial Number (ESN) first 33186155.

The new water pump has **not** yet gone into production at the Cummins India Ltd. Engine plant, this document will be revised to reflect the date implemented into production and engine serial number (ESN) first.

Note : The installation procedure remains unchanged.

Parts Supersession

Tier One - KV38/50 and QSK45/60/78 Diesel, QSK38 MCRS Diesel, QSK38/60 Gas Engines

Description	Old Part Numbers	New Part Number	Remarks
