QSK45, QSK60, and QSK78 Eliminator™ Hydraulic Motor Outlet Restricted Coupling

QSK45, QSK60, and QSK78 Eliminator™ Hydraulic Motor Outlet Restricted Coupling

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document announces the release of an outlet restricted coupling (Figure 1) that is to be fitted to the Eliminator™ hydraulic motor on QSK45, QSK60, and QSK78 engines. The new part number can be found in Table 1.

The restricted coupling has been released to slow the rotational speed of the Eliminator™ hydraulic motor. The outlet restricted coupling has a 1.8 mm [0.07 in] restriction and is fitted between the Eliminator™ hydraulic motor outlet and Eliminator™ hydraulic motor return line, as shown in Figure 2.

With this new release, the Eliminator™ hydraulic motor return lines have also been updated.

The new Eliminator™ hydraulic motor return line assemblies will come with the outlet restricted coupling already attached. The new part numbers can be found in Table 2.

Table 1: Restricted Coupling Part Numbers

Engine	Old Part Number (without restricted coupling)	New Part Number (with restricted coupling included)
Restricted Coupling ¹	N/A	3649824

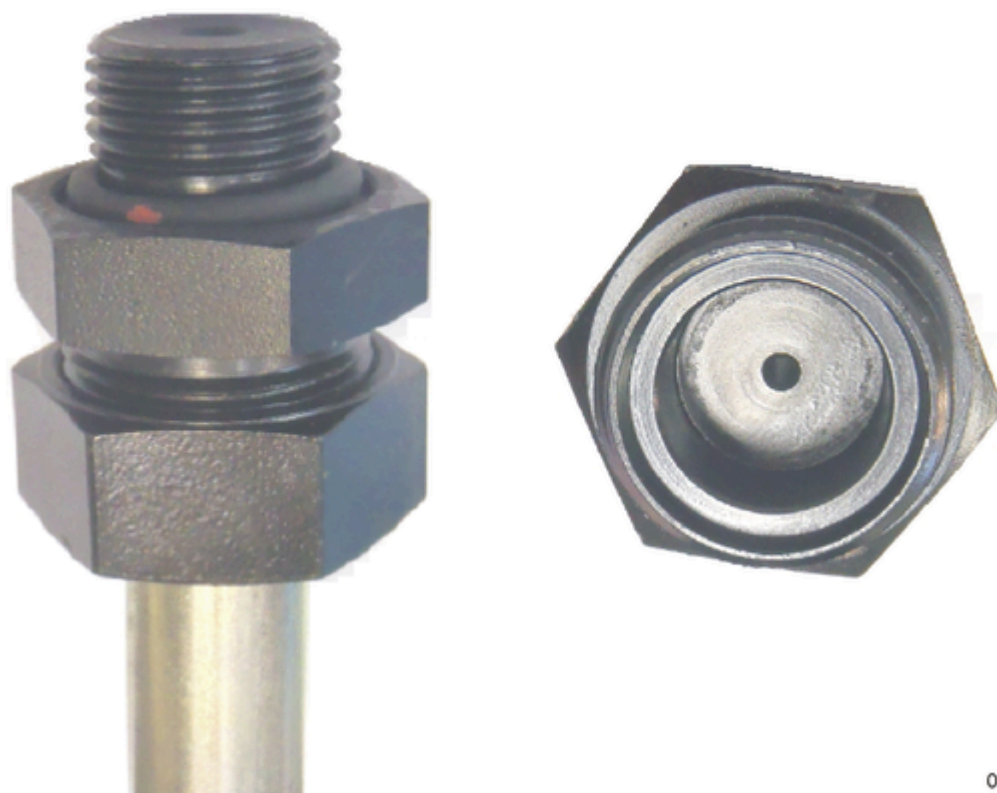

¹Restricted coupling can be purchased separately for use with old motor return pipe.

Table 2: Motor Return Pipe Part Numbers

Engine	Old Part Number (without restricted coupling)	New Part Number (with restricted coupling included)
QSK45 Motor Return Pipe	4100436	3649822
QSK60 Motor Return Pipe	4016422	3649828
QSK78 Motor Return Pipe	4007915	3649823

Note : K38, K50, QSK38, and QSK50 engines with Eliminator™ filters are unaffected by this change.

Document History

Date	Details
2013-8-5	Module Created
2014-5-30	Parts information update
2014-11-5	none
2016-10-31	Updated outlet restricted coupling dimension from 1.6mm to 1.8mm.
