Contents

Currently there is an upper gasket set for the QSK45, Part Number 4024980, and an upper gasket set for the QSK60, Part Number 4025140. These are large sets with many different o-rings, seals, and hoses. The new gasket sets are divided into specific functions on the engine. The smaller sets can be purchased for smaller repairs. A combination of the smaller sets is the same as the original upper gasket set.

All QSK45 and QSK60 power generation and industrial engines will be affected by this change.
