Remotely Mounted Fuel Pump Dedicated Lubricating Oil Filter

Remotely Mounted Fuel Pump Dedicated Lubricating Oil Filter

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

Product Affected

- QSK60 CM2150 MCRS
- QSK60 CM850 MCRS

Description of Change

This remote mount dedicated lubricating oil filter has been released to allow customers to fit the fuel pump oil filter independent to the engine.

Reason for Change

In some applications there is insufficient space to install the on engine dedicated lubricating oil filter. To enable units to benefit from extra filtration to the fuel pump and improved robustness, Cummins Inc. has released the off-engine version.

Customer Communication

This hardware can also incorporate the oil pressure improvement lines. See Technical Service Bulletin, New Fuel Pump Oil Supply Line: Flywheel Supplied, TSB220042 for flywheel housing supplied and for cylinder block supplied.

Service Instructions

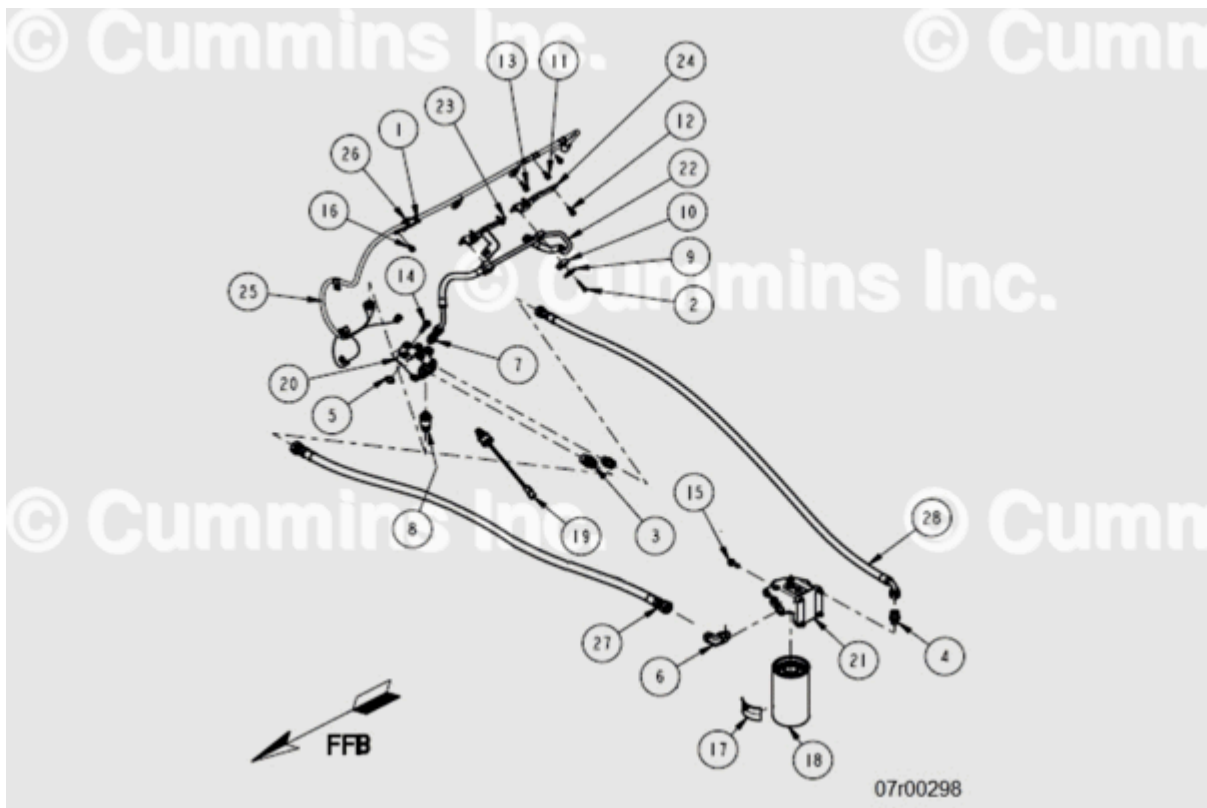

This installation should **only** be used in applications where the on engine dedicated lubrication filter is **not** able to be used because of space constraints.

Service Parts Availability

Service parts are available. See Table 1 for part numbers.

Table 1, Service Parts						
Part Description	Existing Part Number	Obsolete	Superseded	New Part Number	Quantity	Item Number in Figure 1
Clamp	-	-	-	3021331	2	1
