Description

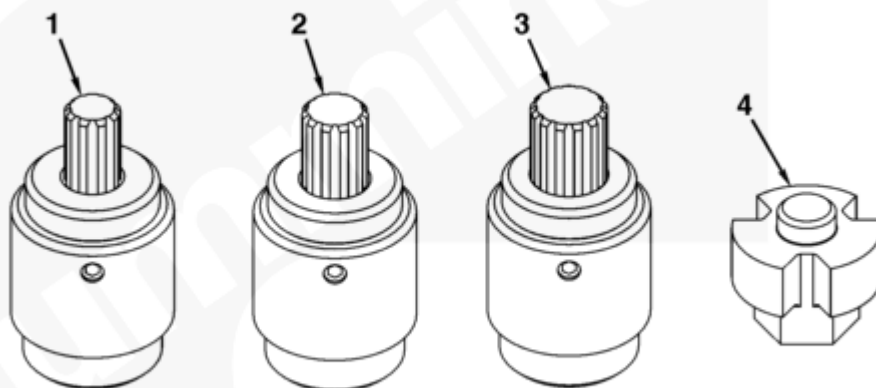

Air Compressor Adapter Replacer

Purpose

This document provides information for air compressor adapter replacer, Part Number 3165100 and other similar replacers. The replacers are used to replace the bearing retainer nut on Cummins air compressors. For additional information on the use of the replacers, refer to the appropriate OEM (original equipment manufacturer) service manual. The appropriate replacers are used on the 6B, B5.9, B5.9G, B5.9LPG, B5.9 Gas Plus, B5.9LPG Plus, ISB, ISB ^e 4 cylinder, ISB ^e 6 cylinder, C8.3G, 6C, C8.3, ISC, ISL, Signature, ISX, ISM, ISM ^e, V28, QSK19, K19, K19G, QSK19G, K38, K50, QST30, QSK45, QSK60, QSK60G, and QSK45G engines.

Note : If the splines on the replacer exhibit excessive wear, cracks, chipped or broken teeth, replace immediately. (See table 3 for the appropriate spline.)
