Description

Fuel Pump Lifting Fixture Kit

Purpose

This document provides information for Fuel Pump Lifting Fixture Kit, Part Number 5299015. The kit is used to remove and install the fuel pump on the QSK38, QSK50, and QSK60 engines with the modular common rail fuel (MCRS) system.

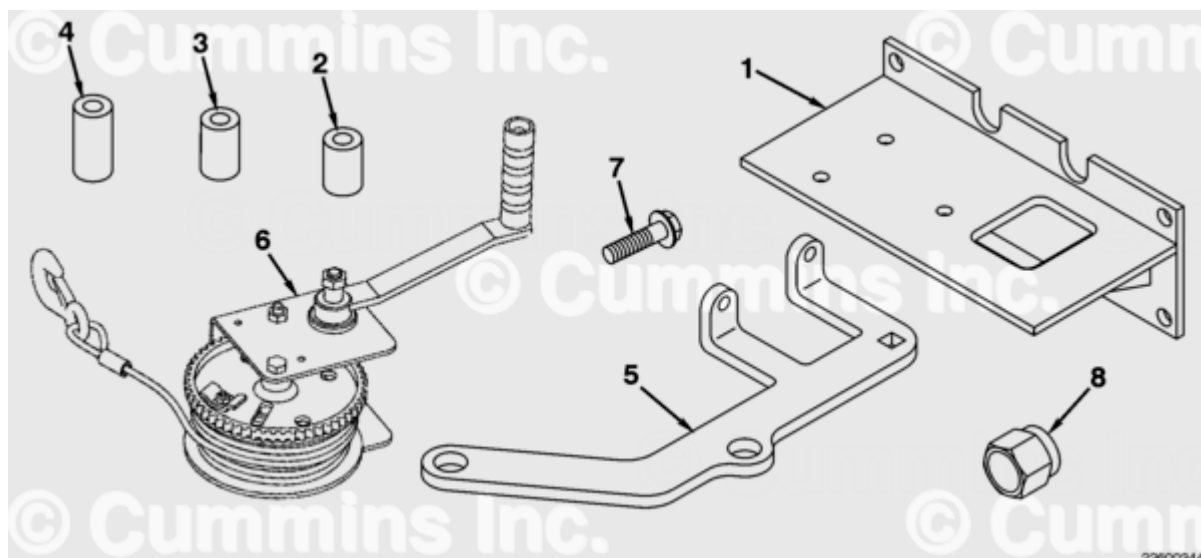

Lifting fixture, Part Number 4918603, requires component kit, Part Number 5299014, when used with the QSK50 and QSK 60 engines.

Additional information for the QSK38 and QSK50 engines can be found in the K38, K50, QSK38, and QSK50 Service Manual, Bulletin 4021528. Refer to Procedure 005-016 in Section 5.

The winch drive adapter, Part Number 4918662, is offered as an alternative to the winch handle in cases where a rotational obstruction exists. If the winch drive adapter is to be used, remove the retaining nut, the spring from the winch handle shaft, and the winch handle. Thread the adapter into position, then install the spring and retaining nut.

Note : The spring and retaining nut are required for proper winch operation and can not be altered or permanently removed.
