Description

Electrical Power Supply Kit

Purpose

This document provides information for electrical power supply kits, Part Number 2892089 and 2892090. The kits are used with the appropriate Cummins® bench calibration cables to allow the electronic control module (ECM) to be calibrated prior to being installed on the engine. The appropriate kit (or equivalent power source) is required when calibrating a CM2250 ECM, however, the kits can also be used with all Cummins® bench calibration cables. Service Tool Instruction, Bulletin Number 3377791, contains additional information regarding available bench calibration cables and their use.

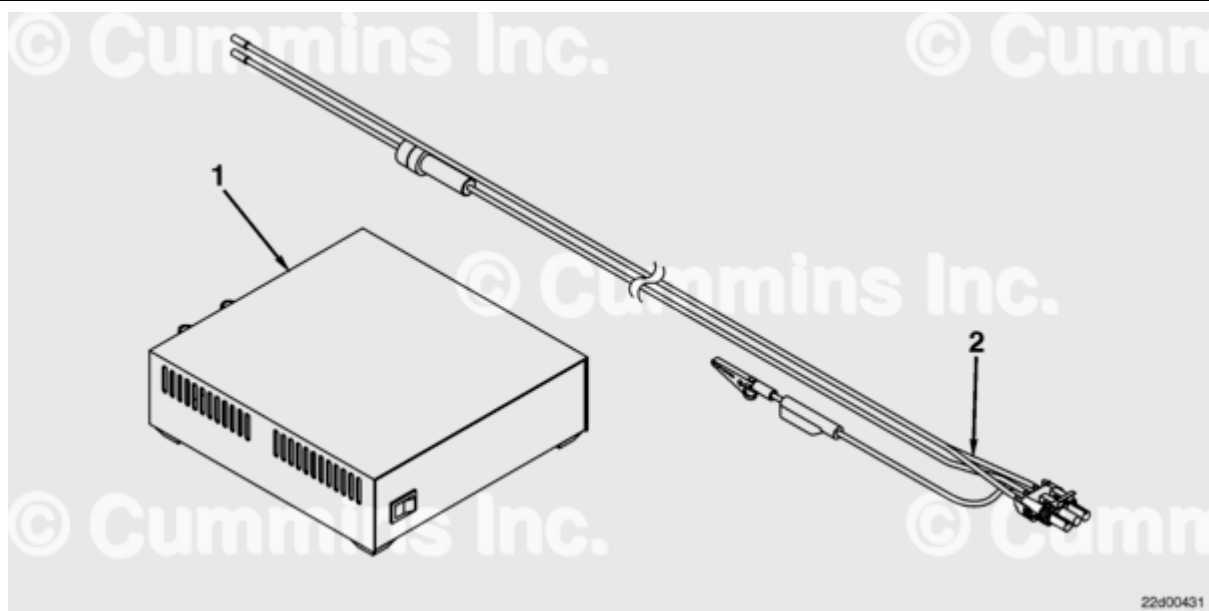

Table 1, Electrical Power Supply Kit (120 Volt, 60 Hz), Part Number 2892089

Item Number	Part Number	Description
1	2892082	Electrical power supply (input: 120-VAC, 60 Hz, 5.5 Amp; output: 13.8-VDC, 23 Amp; includes power cable with NEMA 5-15 plug)

Table 1, Electrical Power Supply Kit (120 Volt, 60 Hz), Part Number 2892089		
Item Number	Part Number	Description
2	2892084	Electrical power cable (1.83 m [6 ft], includes 10 Ampere Time Delay Fuse)
Table 2, Electrical Power Supply Kit (230 Volt, 50 Hz), Part Number 2892090		
Item Number	Part Number	Description
1	2892083	Electrical power supply (input: 230-VAC, 50 Hz; output: 13.8-VDC, 23 Amp; includes power cable with European "Schuko" plug)
2	2892084	Electrical power cable (1.83 m [6 ft], includes 10 Ampere Time Delay Fuse)
Optional item not Shown	2892085	Electrical power cable with BS 1363 Plug (For use in the United Kingdom, use only with kit, Part Number 2892090).
Table 3, Replacement Parts for Electrical Power Supply Kits, Purchased Separately		
Item Number	Part Number	Description
not shown	2892086	Fuse, 6.3 Amp, GDC-6.3A, (power supply internal fuse, use with kit, Part Number 2892090)
not shown	2892087	Fuse, 4.0 Amp, GDC-4A, (power supply internal fuse, use with kit, Part Number 2892089)
not shown	2892088	Fuse, 10 Amp, time delay, (use with output power cable , Part Number 2892084)
