New Alternator Guards and Related Parts

## New Alternator Guards and Related Parts

### Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

### Contents

This Technical Service Bulletin announces new alternator guards and related parts for use on K38/K50 and QSK 38/45/50/60/78 series engines that are in compliance with the European Commission Directive 2006/42/EC for protective guards that went in effect 01-Jan-2010.

The new guards contain captive fasteners that are an integral part of the bracket assembly. The installation procedures remain unchanged.

All new options are fully compatible with the old options. The new guards can be fitted as replacement for the old ones.

Use of the remaining stock of old guards **must** be limited to applications outside of the European Economic Area (EEA).
