New Valve Spring

New Valve Spring

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document announces the release of a new valve spring and the associated cylinder head assemblies for use on the K19, 38 and 50 liter diesel and gas engines.

Note : This does not include the QSK19 mechanically actuated injector or QSK19 Gas engines.

The new spring was released to improve valve spring durability.

The new valve spring can be identified by a white stripe painted down the length of the spring, reference Figure 1. The old valve spring has a red stripe painted down the length of the spring, reference Figure 1. The new spring is slightly longer than the old spring. The removal and installation procedures remain the same for both springs. For valve spring height specifications and removal and installation instructions, use Procedure 002-004 (Cylinder Head) in the appropriate service manual.
