QST30 New Cylinder Liner O-Ring Material

QST30 New Cylinder Liner O-Ring Material

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document announces a product improvement for the QST30 middle and lower cylinder liner o-rings. All QST30 options are affected by this part number change.

The new o-ring is a product improvement that has allowed for a reduction in part numbers, as well as being resistant to both coolant and oil. For the previous materials, the middle o-ring was resistant to coolant and the lower o-ring was resistant to oil.

The new o-ring was developed to prevent o-ring swelling that could lead to liner cracks.

- Engine serial number (ESN) First 37255190.
- Start Date: 06-July-2012.

New and Old Cylinder Liner O-Rings

Part Name	New Part Number	Old Part Number	Start Date
Middle O-Ring	4975687	3092492	06-July-2012
Lower O-Ring	4975687	3092491	06-July-2012
Cylinder Liner Kit	4309331	3804712	06-July-2012
