New QSK45, QSK60, and QSK78 Eliminator™ Centrifuge Shafts

New QSK45, QSK60, and QSK78 Eliminator™ Centrifuge Shafts

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

This document announces the release of new Eliminator™ centrifuge shafts for the QSK45, QSK60, and QSK78 engines.

There is a new part number for the K38, K50, QSK38, and QSK50 Eliminator™ centrifuge shaft, but no changes have been made to the part. The new part number is purely for supersession purposes.

The new QSK45, QSK60, and QSK78 centrifuge shafts have been modified to include a restriction to reduce the oil flow to the centrifuge, to aid in slowing the speed and loading on the centrifuge. The new parts do **not** alter the filtration capability of the centrifuges.

Table 1 lists the new part numbers for the Eliminator™ centrifuge shafts.

Table 1: New Part Numbers for Eliminator™ Centrifuge Shafts

Engine Model	Shaft Part Number
QSK45	3649459
QSK60	3649421
QSK78	3649458
K38, K50, QSK38, QSK50	3649470
