Dual Impeller Water Pump Orifice and Duckbill Changes

## Dual Impeller Water Pump Orifice and Duckbill Changes

### Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

### Contents

This document announces the release of an improved dual impeller water pump for QSK 38, 50, and 60 engine models as shown below.

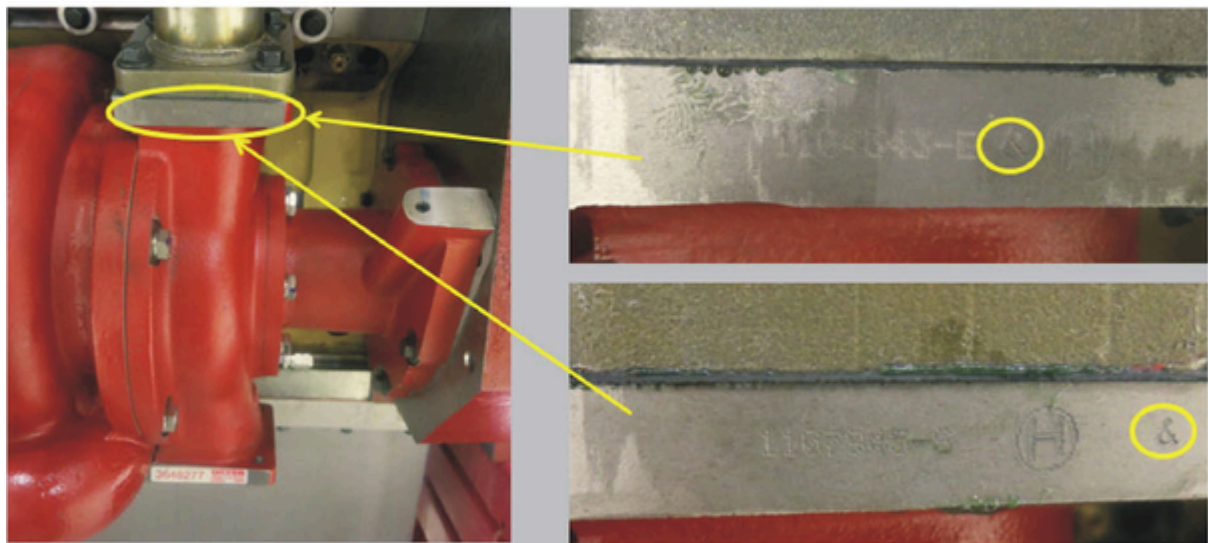

Two changes are being announced in this document.

- A reduction in diameter in the internal oil orifice that is used to supply the bearings with oil.
- A more robust debris shield, to prevent dirt ingress through the weep hole.

The oil feed orifice previously had a higher flow which exceeded the oil requirement for the bearings and caused oil to leak past the oil seal.

The debris shield (duckbill), has been redesigned to be longer and a more secure fit for robustness.

| Item Description  | New Part Number | Old Part Number | Engine Model               |
|-------------------|-----------------|-----------------|----------------------------|
| Pump, Water       | 3651198         | 3648265         | QSK50 Frac Rigs            |
| Pump, Water       | 3651200         | 3648269         | QSK50 Non-Frac Rig         |
| Pump, Water       | 3651202         | 3648270         | QSK38                      |
| Pump, Water       | 3651206         | 3648277         | QSK60                      |
| Pump, Water       | 3651204         | 3648275         | QSK60 1200 rpm Oil and Gas |
| Tube, Water Drain | 3651196         | 3648346         | All                        |
| Shield, Debris    | 3651395         | 3648319         | All                        |

07500019

For four weeks prior to implementation, the new part numbers pumps were produced with the new sized orifice and existing part numbers. These pumps can be identified by the "&" after the serial number stamped on the pump body, as shown above.

**Engine Serial Number (ESN) Firsts are as follows:**

- Part Number 3651202 - ESN 33199433
- Part Number 3651200 - ESN 33199408
- Part Number 3651206 - ESN 33199709.
