Water pump Boss conversion using Welding and Brazing processes

Water pump Boss conversion using Welding and Brazing processes

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

Product Affected

- G50, K50 (All models)
- QSK38 (All models)
- QSK45, QSK45G (All models)
- QSK50 (All models)
- QSK60, QSK60G (All models)
- QSK78 (All models)

Description of Change

The recon process is converting old water pump bodies to new water pump bodies. The boss is introduced on old QSK water pump casting by using two processes: welding and brazing. Customer may receive new water pump bodies with boss as per new current design, or converted water pump bodies with boss using brazing and welding processes.

Reason for Change

- The water pump designs on the following new model part numbers have arrangements of a boss for the mounting pressure sensor:
 - 4376118RX
 - 4376119RX
 - 4376120RX
 - 4376121RX
 - 4376122RX
- This boss for the mounting pressure sensor is **not** present in old water pump castings. The recon salvage process is converting old pump bodies by using either brazing and welding processes as current pump bodies and assembly for recon pumps.

- Mentioned Cummins® Recon Part numbers above are **not** changed but physical parts in kits for Water Pump Castings with current Inbuild arrangement of boss for pressure sensor mounting may visually look different depending on brazing and welding process used.
-

Customer Communication

No change to Part number(s), this TSB is to inform field that parts produced and sold using either brazing and welding processes may look visually different (see below for pictures), but have the same fit, form, and function.

Service Parts Availability

Part numbers are **not** changed for water pump kits. Service parts are available. See Table 1 for part numbers.

Table 1, Service Parts

Part Description	Existing Part Number	Obsolete	Superseded	New Part Number
Water pump Kit	4376118RX	No	No	-
Water pump Kit	4376119RX	No	No	-
Water pump Kit	4376120RX	No	No	-
Water pump Kit	4376121RX	No	No	-
Water pump Kit	4376122RX	No	No	-

Part Compatibility

Parts produced with old bodies using brazing and welding processes are completely compatible with same fit, form, and function. These parts are acceptable to use.
