

Technical Service Bulletin

Technical Service Bulletin: TSB190224

Released Date: 06-Apr-2020

Required Upgrade of Cummins Inc. Update Manager

Required Upgrade of Cummins Inc. Update Manager

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

Products Affected

- All electronically controlled engine products.

Issue

- Cummins Inc. Update Manager Server security settings are changing. As a result, all users must upgrade their Cummins Inc. Update Manager to Cummins Inc. Update Manager 7.3 or later versions by April 19, 2020. If users do **not** upgrade, Cummins Inc. Update Manager will stop working after April 19, 2020. After that time users will need to manually upgrade Cummins Inc. Update Manager to v7.3 or higher.

Verification

- Open Cummins Inc. Update Manager and click on the "About" tab to check the version number.

Resolution

Upgrade to the latest version of Cummins Inc. Update Manager by using one of the options listed below:

- Option 1 (before April 19, 2020): Open Cummins Inc. Update Manager and check for updates. A prompt should appear if newer version of Cummins Inc. Update Manager is available. Follow prompts until update is complete. Cummins Inc. Update Manager will close and reopen automatically during this process.
- Option 2: Download the latest version of Cummins Inc. Update Manager from our website, which requires admin privileges to install. See link below.
