New Rocker Lever Housing Gasket

New Rocker Lever Housing Gasket

Warranty Statement

The information in this document has no effect on present warranty coverage or repair practices, nor does it authorize TRP or Campaign actions.

Contents

Product Affected

- All KV/QSK 19, 38, and 50 Series Engines

Description of Change

A new rocker lever housing gasket has been released that has changed the material from steel to aluminized steel.

Reason for Change

There had been multiple reports of rocker lever housing gaskets leaking on engines in operation caused by corrosion of the gasket. As part of a PPS project, a new aluminized gasket has been released. The new gasket is more resistant to corrosion over the existing steel type gasket and will increase the component's life span.

Customer Communication

A new part number has been released for the new rocker lever housing gasket. The current gasket has been obsoleted.

Service Parts Availability

Service parts are available. See Table 1 for part numbers.

Table 1, Service Parts				
Part Description	Existing Part Number	Obsolete	Superseded	New Part Number

GASKET, ROCKER LEVER HOUSING	3630839	X	X	5373849
------------------------------------	---------	---	---	---------

Part Compatibility

Full backwards compatibility. The new gasket will fit the current cylinder head and rocker lever housing as a direct replacement.

Part Identification

New part is aluminized steel and is similar in color to the old gasket. The part number is stamped into the gasket for identification.

Part Inventory Action

Use existing part number inventory before using the new part number.

Service Tools and Training Available

No special tools are required.

Production Status

Implemented for production. See Table 2.

Table 2, Production Information		
ESN First	Build Date ¹	Plant
33218089	13MAR2019	DAVENTRY
¹ Engine build date can be found on the engine dataplate.		

Publications Affected / Associated Publications

There is no change to publications.
