Description of Change

Switching from oil-based paint to a new water-based paint which is now being used on all Daventry Engine Plant manufactured engines. The change was effective on the 03 January 2023.

Reason for Change

Paint defects such as peeling, cracking, and fading during application have been observed. The new water-based paint has better thermal capabilities, has performed better over extended use in applications, and is more environmentally friendly.

Customer Communication

No new aftermarket touch-up water-based paint is available. Existing aftermarket paint is oil-based and there may be visual differences in shade and finish. Reference Table 1 for the applicable engineering standards (use Cummins® Engineering Standards and RAL codes to request water-based touch-up paint from an external supplier).

Table 1, Paint Description and Color Standard

Color Description	Color standard
CUMMINS BEIGE, HIGH GLOSS	CES 60027
CUMMINS RED, HIGH GLOSS	CES 60027

Table 1, Paint Description and Color Standard	
Color Description	Color standard
CUMMINS MARINE GRAY, HIGH GLOSS	CES 60027
CUMMINS BLACK, HIGH GLOSS	CES 60027
CUMMINS ONAN GREEN, HIGH GLOSS	CES 60027
CUMMINS CLOUD WHITE, HIGH GLOSS	CES 60027
KOMATSU YELLOW	*
TRAFFIC GRAY	RAL7043
BASALT GRAY	RAL7012
*Komatsu engineering standard	
Because of the difference in viscosity between water-based and aerosol oil-based paints, casting imperfections will be more noticeable.	
Production Status	
Implemented for production. See Table 2.	

Table 2, Production Information			
Paint color	ESN First	Build Date ¹	Plant
Beige	33230671	1 March 2023	Daventry
Red	33230409	1 April 2023	Daventry
Green	33230678	1 March 2023	Daventry
Marine Grey	33229985	1 March 2023	Daventry
Komatsu Yellow	33230291	1 March 2023	Daventry
